3. How to get care

Sensitive care

Minor consent services

If you are under age 18, you can get some services without a parent's or guardian's permission. These services are called minor consent services.

You may get these services without your parent or guardian's permission:

- Services for rape and other sexual assaults
- Pregnancy testing and counseling
- Contraceptive services such as birth control (excludes sterilization)
- Abortion services

If you are 12 years old or older, you may also get these services without your parent's or guardian's permission:

- Outpatient mental health services based on your maturity level and ability to participate in your own health care
- HIV/AIDS counseling, prevention, testing, and treatment
- Sexually transmitted infections prevention, testing, and treatment which may include sexually transmitted diseases such as syphilis, gonorrhea, chlamydia, and herpes simplex.
- Substance use disorder treatment for drug and alcohol abuse including screening, assessment, intervention, and referral services
 - To learn more, read "Substance use disorder treatment services" in Chapter 4 of this handbook.

For pregnancy testing, family planning services, birth control services, or services for sexually transmitted infections, the doctor or clinic does not have to be in the SFHP network. You can choose any Medi-Cal provider and go to them for these services without a referral or pre-approval (prior authorization). For more information related to family planning services, please reference the “Preventive and wellness services and chronic disease management” in Chapter 4 of this handbook.

For minor consent services that are outpatient mental health services, you can go to an in-network or out-of-network provider without a referral and without pre-approval (prior authorization). Your PCP does not have to refer you and you do not need to get pre-approval (prior authorization) from SFHP to get covered minor consent services.

Minor consent services that are specialty mental health services are not covered. Specialty mental health services are covered by the county mental health plan for the county where you live.

Minors can talk to a representative in private about their health concerns by calling the 24/7 nurse line services at **1(877) 977-3397**. Or you can call Teladoc® for a phone or video consultation with a doctor at **1(800) 835-2362** or visit **sfhp.org/teladoc**.

SFHP will not send information about getting sensitive services to parents or guardians. To learn more about how to ask for confidential communications related to sensitive services, read “Notice of privacy practices” in Chapter 7 of this handbook.

4. Benefits and services

What your health plan covers

This chapter explains your covered services as a member of SFHP. Your covered services are free as long as they are medically necessary and provided by an in-network provider. You must ask us for pre-approval (prior authorization) if the care is out-of-network except for certain sensitive services and emergency care. Your health plan might cover medically necessary services from an out-of-network provider, but you must ask SFHP for pre-approval (prior authorization) for this.

Medically necessary services are reasonable and necessary to protect your life, keep you from becoming seriously ill or disabled, or reduce severe pain from a diagnosed disease, illness, or injury. For members under the age of 21, Medi-Cal services include care that is medically necessary to fix or help relieve a physical or mental illness or condition. For more on your covered services, call **1(800) 288-5555 (TTY 1(888) 883-7347 or 711)**.

Members under 21 years old get extra benefits and services. To learn more, read Chapter 5, “Child and youth well care.”

Some of the basic health benefits SFHP offers are listed below. Benefits with a star (*) need pre-approval (prior authorization).

- Acupuncture*
